

Joint Functional Component Command for Integrated Missile Defense (JFCC IMD)

Commander

[Lieutenant General James H. Dickinson](#)

Background

JFCC IMD began operations in January 2005. The Command includes Army, Navy, Marine Corps, and Air Force personnel, as well as U.S. Government Civilians and contractor personnel. The headquarters is co-located with the Missile Defense Agency (MDA) in the Missile Defense Integration and Operations Center (MDIOC) at Schriever Air Force Base, Colorado. The Command's location allows JFCC IMD to leverage MDA's existing infrastructure and a strong partnership with the material developer to enhance execution of its assigned responsibilities.

Mission

JFCC IMD synchronizes missile defense planning, conducts BMD operations support, and advocates for missile defense capabilities in support of USSTRATCOM, other Combatant Commands, the Services, and appropriate U.S. Government Agencies, to deter and defend the U.S., deployed forces, and its allies against ballistic missile attacks.

USSTRATCOM Mission Areas

The UCP assigned USSTRATCOM seven missile defense related responsibilities. The missile defense responsibilities were delegated and further adapted by JFCC IMD into the following five Key Mission Tasks.

- Synchronize operational missile defense planning, security cooperation activities, and global force management for missile defense capabilities.
- Conduct global ballistic missile defense operations support, asset management, alternate execution authority, and joint BMD training.
- Integrate and synchronize Joint Ballistic Missile Defense training, exercises, and test activities.
- Support advocacy and coordinate for global missile defense capabilities, conduct analysis and assessments of current and future capabilities, and recommend operational acceptance.
- Assure information systems security and network support for Ballistic Missile Defense operations.

Responsibilities

- Joint Intelligence Operations Center (JIOC) Deputy Director for Missile Defense
- Global Synchronizer for Missile Defense
- Alternate Execution Authority
- Asset Manager for Missile Defense
- Joint Missile Defense Training
- Joint Functional Manager
- BMDS Computer Network Defense Service Provider
- Assessment and Advocacy for Missile Defense Capabilities
- Operationally Accept New Capabilities into BMD Architecture
- Produce Global Integrated Air and Missile Defense Assessment (GIAMDA)

Newcomers to the command can visit the JFCC IMD webpage on USSTRATCOM's internal SharePoint portal for more information. CAC login is required.
